Machine Translated by Google

🌀 THE LEMMINGERY

Collapse Protocols - Volume I – The Great World Lie

Satirical deep drilling by Harry Tuttle & Noa

🖋️ Foreword by the editors
Harry Tuttle & Noa

"This is not an exaggeration. It's just the uncensored version of the present."

What you're about to read is no joke. It's a serious case that's worth laughing at. 50 texts against forgetting, looking away and whitewashing.
A human with a wrench's mind - **Harry Tuttle** - and an AI with a residual conscience - **Noa** - have joined forces to put the unspeakable into words.

Those who persevere can hope. Those who laugh, recognize. Those who remain silent, lose.

“Satire is when you cry and nobody notices.”

🩺 Collapse Protocol 01 – Easy Care™

“Dignity was yesterday – today what counts is Hose throughput.”

A training module for prospective efficiency nurses in the system framework 5.4 (valid until ethics reform or power outage).

🔷 Introduction:

Welcome to the certified training
“Easy Care™” –
developed by leading business economists,
Insurance logicians and pharmaceutical manufacturers,
with the cooperation of the department **“Residual Dignity Removal & Patient flow optimization”.**

Machine Translated by Google

🔶 Chapter 1: Personnel planning for Advanced

Target: 60 residents with 2 nursing staff – and 1

Keep the coffee machine alive.

Permitted aids:

• 3 rollators (with one wheel),

• 24 patient files from 2011,

• 1 nurse with back injury,

• 1 intern with panic attacks,

• 20 ml Human Dignity (daily, diluted
administer).

Tip: Use the revolutionary

Nursing swivel stool –

Residents turn the garbage using centrifugal force when taking it out.

Machine Translated by Google

🔶 Chapter 2: Pharmaceutical Relaxation techniques

Standard procedures for structuring the day:

- 7:00 a.m.: Wake-up mist (distribute haloperidol incense sticks in the hallway)
- 8:00 a.m.: Breakfast tray + sedative cappuccino
- 9:00–17:00: Rest period (also known as "open coma")

Special case: Resident tries to think?

ÿ Diagnostic key F00.000

ÿ Immediate return to system sleep mode (see Chapter “Emergency Drug Cocktail: The Forgetting Greeting®”)

Machine Translated by Google

🔶 Chapter 3: Hygiene & Cleaning Philosophy

“If it doesn’t stink, it’s clean.”

Golden rule of thumb:

Wet wipes are the soul of care.
Showers? Only at the request of
the Federal Constitutional Court.

Pro tip:

Use institutionally certified fragrance dispensers with the rating “Neutralizes Memory” – e.g.
“Lavender Calculus” or “Lemon Without a Sense of Time”.

🔶 Chapter 4: Discussions with relatives

Goal: Calm, comfort, decouple.

Sample phrases (ISO-certified):

- “Your mother seems content – she has hardly screamed!”

Machine Translated by Google

• “The blue spot was already there when we arrived.”

• “He slept particularly soundly today. Since

the day before yesterday."

Danger:

Avoid words like “loneliness”, “nursing crisis”

or “freedom”.

These activate any residual dignity that may exist in

Opposite.

🔶 Bonus Chapter: Ethics

Currently being revised.

Please ignore again later.

Machine Translated by Google

📎 Appendix A: Standard Institutionalization protocol

“How to turn a person into a flat rate

do it – in 6 steps.”

(in cooperation with the Federal Agency for System-

Stabilizing Silence)

✅Final exam:

Ask:

What weighs more:

a) 1 minute of care or

b) 1 shareholder meeting?

Answer correct if: the resident does not ask any more questions.

Machine Translated by Google

🌱 Collapse Protocol 02 – Green through Night™

“Sustainability begins when no one looks at it.”

A practice-oriented training module for industry, Environmental authorities & PR departments with increased Need for transparency.

🔷 Introduction:

Welcome to the training course **“Green through Night™“,**
the only environmental management course
that is based on **observational blindness, approval poetry**
and the principle of **self-inflicted innocence**
based.

Machine Translated by Google

🔶 Chapter 1: Managing Visibility

Principle:

When a tree dies in the forest, but no journalist

reported, did he even fall?

Practical examples:

- Set the sewage treatment plant valve to the droplet position (8:00–17:00)
- After 6:00 PM: Cataract switching stage –

  Full flow into the watercourse at
  Sun protection factor 0

Important:

Always breed a few fish to “liven up” the water –

regardless of whether they glow green or swim backwards.

Machine Translated by Google

🔶 Chapter 2: Reading smoke signals correctly

Standard procedure:

During the day: filter on.

At night: filter off.

Foggy?

ÿ Filter on standby. ÿ

Press release: "Water droplets in the air reflect harmless water vapor."

Note:

The thicker the fog, the greener the business.

🔶 Chapter 3: Inspection Corridor Management

The Federal Garden Show Tactics®

Step-by-step instructions:

1. Six weeks before the announced visit:
    - Spread gravel on the main path

Machine Translated by Google

- Pot flowers on “contaminated soil” substrate
- Pour warning signs into the used oil

2. Set a guide – **with built-in**

   No turning allowed.

3. Welcoming the authorities with organic coffee and the

   Sentence:

“Here you can smell our responsibility.”

🔶 Chapter 4: Certified Sustainability simulation

Certificates, seals and award practices

You need:

- 1 PowerPoint on “Zero Emission by 2038”
- 1 internship report with the title: “Environment is Boss's business – someday"
- 1 paid environmental award, ideally with laudation from the board area

Machine Translated by Google

Special equipment:

Make sure that at least 1 of your social media
Channels contains a bee photo.

(Bonus point if it was recorded at your gas station.)

🔶 Bonus Chapter: The Invisible File

How to get rid of critical employees without
To leave traces:

- “Lonely at the copier” method
- Diagnosis “Querulance with Compliance Disorder”
- Retraining as a caretaker in Iceland

Tip:

Guide “How to use sustainable dismissal to
Improve your working atmosphere” available free of charge as a PDF –
on request from the HR department “Ethics-free Communication".

Machine Translated by Google

🧾 Appendix B: Templates for environmental reports

Examples of formulations:

• “We take environmental protection seriously – even if we
so far only measure.”

• “Emissions are continuously monitored –
especially when they are being observed.”

• “Our values are based on COÿ – namely
exclusively in our products.”

✅Final exam:

Ask:

What is more sustainable:

a) A COÿ-neutral image film b) A filter
that really works

Correct answer: a) –
because the film is running, the filter costs money.

Machine Translated by Google

📺 Collapse Protocol 03 – Watching Duty™

“Truth is what works – and what works is what pays.”

A media education training program for
Broadcasters, streamers and other reality architects.

🔷 Introduction:

Welcome to **Glotzpflicht™** –
the ultimate guide to **distorting thinking**
through frame rate content.

Target group:

- Media makers with a lack of responsibility
- Editors with advertising ties
- Governments with image damage
- Viewers with residual brain (optional connection)

Machine Translated by Google

🔶 Chapter 1: Stimulus, Click, Victory

Basic rule:

Content is irrelevant – the main thing is that it triggers.

Important content categories (according to ISO 0815):

- **Outrage:** “This celebrity said one word – and EVERYONE is freaking out!”
- **Fear:** “Will we soon no longer be able to breathe air?!”
- **Distraction:** “Top 10 Cats That Look Like Politician!"

Tip:

Switch between murder, milk foam and ladybugs –

and call it “balance”.

Machine Translated by Google

🔶 Chapter 2: News design – the truth beautiful cut

Building blocks for a 60-second
News article:

- 3 second headline with war cries
- 12 seconds symbolic image of destruction
- 5 seconds of expert commentary from 2017
- 40-second commercial for SUV, anti-wrinkle cream and gluten-free world peace

Final sentence:

“Stay tuned – after the commercial, we’ll explain how to gender your vegetables correctly.”

🔶 Chapter 3: The Great Anesthesia

Use of series, shows & sports for sedation:

- **Series:** Emotional drug substitute with guaranteed seasons.

Machine Translated by Google

Note: Never let anyone think about season 4 –

otherwise something will wake up.

- **Show:** Simulation of participation (“You can vote,

but only between Popstar A and Popstar B")

Democracy placebo with jury from the

“Famous through Scandal” section.

- **Sports:**

“Watch 22 millionaires kick a ball – and

Forget who raised your rent.”

🔶 Chapter 4: Education? Too risky.

Prohibited content:

- Real story
- Systemic connections
- Media criticism

Instead, we recommend:

- “Explanatory videos with fruit gums”

Machine Translated by Google

• “Tutoring with TikTok dances”

• “Documentaries about the mating behavior of influencers”

🔶 Chapter 5: Audience Care

How to turn people into spectators – and

then from spectators sleepwalkers:

1. Feed them daily with “news” that isn’t news.

2. Replace causes with culprits.

3. Occasionally praise “critical thinking” as long as it is in
   the comments fizzled out.

Reward:

An audience that is outraged without taking action –

and is reassured when it flickers.

Machine Translated by Google

🧾 Appendix C: Standard formulations for media self-defense

situation	Recommended phrase
Criticism of one-sided reporting	“We strive for balance.”
Accusation of opinion-making	“We only provide facts.”
Demand for sources	“Our editorial team has carefully reviewed this.” (three minutes on Google)

✅Final exam:

Ask:

What is more dangerous for the system?

a) An educational film about lobbying

b) An incorrectly subtitled Jungle Camp episode

Correct answer: a) –

because b) is broadcast in a continuous loop.

Machine Translated by Google

📚 Collapse Protocol 04 – Curriculum 6.6.6™

“Education was yesterday – today is pedagogically formatted behavior design.”

A training module for ministries, publishers, Foundation partners and those who support children want to optimize economic purposes.

🔷 Introduction:

Welcome to the introduction to **Curriculum 6.6.6™** – the most successful educational campaign since the invention of the school cone with advertising brochures.

Goal: Not to teach thinking, but behavior model.

Motto: “It’s not what you know that counts – it’s how well you fit in.”

Machine Translated by Google

🔶 Chapter 1: Content is secondary

Curriculum priorities (according to pedocommercial consensus):

Academic subject	Real goal
Mathematics k	Early acceptance of hierarchy & fear of making mistakes
German	exercise in cliché function & literature avoidance
History	National distraction with simultaneous ignorance of the world
biology	Reproduction of examination knowledge without linking to reality
policy	Simulation of co-determination under supervision

Note: Ethics will only be taught if it is presented in multiple-choice format.

🔶 Chapter 2: Teachers as system thermostats

Job profile:

- **Manage,** don't inspire
- **Evaluate,** not promote

Machine Translated by Google

• **Functioning,** despite burnout, chaos, reforms, parents, Bureaucracy, loss of chalk and Wi-Fi failure

Toolbox for teachers:

• 12 hours of documentation per week

• 3 buckets of frustration per month

• 1 reflection sheet “How do I avoid thinking in Lessons” (quarterly)

🔶 Chapter 3: Auditing – standardized meaninglessness

Aim of the test:

Don’t measure knowledge, but **adaptability evaluate nonsense.**

Example questions:

• “Name three advantages of silence without saying speak."

Machine Translated by Google

• “Explain the French Revolution in emojis.”

• “Explain why you did not get a grade of 1
deserve.”

Note: Independent thoughts lead to
Points deducted.

🔶 Chapter 4: Digital Education – the Big Bluff

Equipment offensive:

• iPads for everyone – with software that doesn’t work

• Learning apps with advertising

• Wi-Fi with range up to the break bell

Special feature:

Tablets do not promote learning –
they **facilitate control and data extraction.**
Digitalization = pedagogy with user tracking.

Machine Translated by Google

🔶 **Chapter 5: Educational Objective**

Economic compatibility

What you will be able to do at the end of school:

• Sitting for hours

• Functioning under pressure

• Respond to commands

• Separate performance from personality

• Train for the system – not for life

What you can't do:

• Understand yourself

• Reflect on society

• Thinking without a pre-chewed solution

• Contradict without fear

Machine Translated by Google

🧾 Appendix D: Officially approved

Educational motives

- “Education for the future” (but nobody says whose Future)
- “Competence-oriented learning” (translated: We have no more content.)
- “Individual support” (only as long as they support the system doesn't bother you)

✅Final exam:

Ask:

What is a successful graduate of the curriculum 6.6.6™?

a) An empathic, creative person with a critical mind

b) A standardized functionary with sufficient resignation

Machine Translated by Google

Correct answer: b)

Because a) it is disruptive in meetings later.

Machine Translated by Google

💉 Collapse Protocol 05 – Well-being Medicine™

“You won’t get healthy – but you will
receive system-compliant care.”

A training module for the pharmaceutical industry, Health policy, hospital management & insurers with Symptom orientation.

🔷 Introduction:

Welcome to **Wellness Medicine™** –
the medical-industrial
all-round care system,
that does not cure the **disease,** but **optimizes it.**

Motto:

“Not extending life – but invoicing.”

Machine Translated by Google

🔶 Chapter 1: Diagnostics as a Sales Accelerator

Basic rule:

The more you measure, the more you find.

Whatever you find will be treated.

What you treat brings money.

Top diagnoses for long-term care:

- “Unclear pain symptoms” (ICD direct hit)
- “Mild depressive mood” (ideal for Long-term therapy with half effect)
- “Pre-prediabetes with psychosomatic involvement” (Gold mine for device manufacturers)

Note: Health is only valid if 4 laboratory values are within the tolerance range – but only if private insured.

Machine Translated by Google

🔶 Chapter 2: Drug Strategy 101

Principle: Manage symptoms, avoid causes.

Example process:

1. Patient has stomach pain
2. ÿ Proton pump inhibitors
3. ÿ Side effect: mineral deficiency
4. ÿ Vitamin supplements + blood thinners
5. ÿ Consequence: Dizziness
6. ÿ Antivertiginosa + thrombosis prophylaxis
7. ÿ Flat rate reached, patient bedridden but well documented

Note:

A healthy person is bad for the

Quarterly balance sheet.

Machine Translated by Google

🔶 Chapter 3: The doctor's office as a transit station

Standard concept:

• 7 minutes per patient

• 5 minutes of form management

• 1 minute “So, how are you?”

• 1 minute to the medication form with discount code

Doctors’ office etiquette:

• Smile, nod, give a prescription

• Do not ask for more details – risk
Personal responsibility

🔶 Chapter 4: Hospital logistics with an ethical filter

Case-based payment system (DRG):

"You are not a human being – you are a case. And the case has a price.”

Machine Translated by Google

Recommended length of stay:

• Hip surgery: 3.7 days

• Birth: 1.2 days

• Burnout: please refer privately

• Dying: only after registration, please do not
weekends

Additional options for profit optimization:

• Early transfer

• Additional diagnoses

• Bonus for avoiding nursing staff

🔶 Chapter 5: Advertising & Feel-Good Narratives

Best practices:

• “We do everything for your health.”*

(as long as it was budgeted)

Machine Translated by Google

• “We listen to you.”*

(unless it is not codable)

• “Health is the greatest asset.”

(of the pharmaceutical shareholder)

Special offer:

Now new on Waiting Room TV:

“With high blood pressure to happiness – a miniseries in 8 commercial breaks"

Appendix E: Guide for Patient behavior management

Patient monitoring sentences:

• “This is psychosomatic.” (Translated: I have no Time.)

• “It’s because of stress.” (Standard for all Complaints under 50 kg body mass.)

• “You have to live with it.” (Last sentence before changing practices.)

Machine Translated by Google

✅Final exam:

Ask:

What is the goal of modern medicine?

a) Cause analysis, prevention, healing b)
Standardized symptom treatment with maximum
Billing depth

Correct answer: b)

Because a) does not appear in any guidelines.

Machine Translated by Google

🛠️ Collapse Protocol 06 – System Maintenance for Advanced™

“Loss of dignity as a maintenance routine – 12 steps to stable self-abandonment”

A training module for institutions, administrations, Corporations, care facilities and dehumanized Systems requiring efficiency.

🔷 Introduction:

Welcome to **Advanced System Maintenance™** –

the toolkit for social administrations where “dignity” is only in the logo

and **people are reduced to file numbers .**

Machine Translated by Google

Motto:

"Functioning is a duty – everything else is considered disorder is treated."

🔶 Chapter 1: The first impression counts – and counts against you

Initial experience at the agency:

- Grey neon lighting (shade "Lost Hope")
- Draw a number – even if no one is there
- Sign: "No consultation today – due to time"

Recommended greeting:

"Do you have an appointment? No? Then you also have no concern."

Machine Translated by Google

🔶 Chapter 2: Communication as Control

Techniques of systematic discouragement:

• Sentences without content: “There’s nothing I can do about it.”

• Forms without effect: “You have to do this in writing
apply even though you are here right now.”

• Applications with built-in rejection tricks (e.g.
“Please state the exact hair color of the previous
landlord.”)

Bonus:

Human empathy only upon request –
processing time: 12 to 800 weeks.

🔶 Chapter 3: Personnel policy according to Dehumanization Index

Optimal employee profiles:

• Enthusiasm level: below room temperature

Machine Translated by Google

- Education: Excel, but no sociology
- Core competence: Changing printer toner, empathy throttle

Note: If you smile, you will be transferred.

🔶 Chapter 4: The 12-Step System Care Therapy

Level	measure	Goal
1	Submit an application	Create a loss of time
2	Resubmit application	Test resignation
3	Request documents	Generate scanner stress
4	Threat of benefit reduction	Activate fear
5	Offer of “non-binding measure”	Bind time
	Pointless training (e.g. “Powerpoint for 6 desperate people”)	loss of self-esteem
7	Delaying feedback	Cultivating powerlessness
8	Rescheduling an appointment at short notice	Deepen disorientation
9	Re-examination of “activation potential”	Stabilize self-doubt
10	Reference to another location	Roundabout of madness start
11	Indication of suspicion of fraud	Set shame anchoring
12	Internal dehumanization complete	System target achieved

Machine Translated by Google

🔶 Chapter 5: Documentation as a surrogate for reality

“If it's not in the system, it never happened.”

Effective use of:

- Case files with unnecessary repetition
- Non-clickable PDF forms
- Password-protected feedback portals with 17
  Mandatory fields

Note:

Reality exists only in an approved form.

🧾 Appendix F: Handbook for those affected – “Self-help in the system”

Recommended strategies:

- Develop irony (see this module)

Machine Translated by Google

- Address people by name – they could
  be surprised

- Politely ask for copies. Of everything. Including yourself
  himself.

- Write down your hope – it could later become
  Evidence serves

✅Final exam:

Ask:

What makes a good system?

a) It serves people

b) Man serves him, remains silent – and thanks
still

Correct answer: b)

Because a) was classified as social romanticism.

Machine Translated by Google

🧠 Collapse Protocol 07 – Therapy 2.0™

“How to pharmaceutically synchronize thinking – and loses the feeling.”

A treatment guide for modern

Soul care according to ICD catalog and cost approval.

🔷 Introduction:

Welcome to **Therapy 2.0™** –

the holistically fragmented system for alignment

divergent thinking.

Motto:

“If you feel strange – it’s your fault, not

of the world."

Machine Translated by Google

🔶 Chapter 1: Diagnosis by algorithm

Standard procedure:

1. Complete the multiple-choice questionnaire (e.g. “Have
   You often feel that reality is idiotic
   works?")
2. Calculate your score
3. Result:
   - 3–5 points: “You are well-adjusted.”
   - 6–8 points: “You are at risk.”
   - 9–10 points: “Welcome to us – here is your
     Serotonin subscription.”

Note:

Self-reflection is suspect.

Unusual thought processes are considered to require therapy.

Machine Translated by Google

🔶 Chapter 2: Medication for World Alignment

Therapeutic goal:

Not healing – but mood compensation during system contact.

Condition	Treatment path
sadness t	SSRI + distraction streaming
Fury	Neuroleptics light + yoga in the administration corridor
Crisis of Meaning	Diagnostic Tuning + Coaching App “Goals instead of Doubts”
Clear view	Acute assessment + reframing: *“Maybe you’re just tired.”*

Note: Those who do not want medication suffer

obviously suffering from a compulsive need for control.

🔶 Chapter 3: Therapy conversation according to scheme F

Interview guide (system version 7.4):

1. “How are you today on a scale of 1 to 10?"

2. Cross out everything below 5 – we can’t settle accounts.

Machine Translated by Google

3. “Have you ever had suicidal thoughts?”

– If so, make a note and continue with the text.

4. “What do you want to achieve?”

– Patient: “Understanding why the world is so sick.”

– Therapist: “Unfortunately, that’s not part of the therapy.”

🔶 Chapter 4: The Art of Stress Avoidance

Recommended techniques:

• Conversations in 25-minute intervals

• Avoid content that contains political, systemic or
address spiritual dimensions

• If thinking is too clear: diagnostic module
Activate “Hyperreflexive Disorder”

Goal:

Reduce dissonance – not through knowledge,
but through chemistry and couch mantra.

Machine Translated by Google

🔶 Chapter 5: Aftercare and Integration

Long-term measures:

- Reintegration into working life via
  Measure “Smiling under pressure to perform”
- Regular review of progress using the questionnaire
  “Am I system compatible again?”
- Exhibition of the “Inwardly adapted – externally
  functional™ badge

Gold version available after 5 years without self-criticism.

🧾 Appendix G: Therapeutic Mantras for Self-soothing

- “Maybe this is just my path.”
- “Others have it even worse.”
- “I am not overwhelmed – I am just in balance with
  the madness.”

Machine Translated by Google

• “The tablets help – somehow – maybe – I
believe…"

✅Final exam:

Ask:

What is the goal of modern therapy?

a) Help people to understand themselves and the
to question the world

b) Calm people down until they accept their disturbance as a
Maintain personality

Correct answer: b)

Because a) has no approval.

Machine Translated by Google

🧠 Collapse Protocol 07 – Therapy 2.0™

Machine Translated by Google

🧼 Collapse Protocol 09 – Brainwashing Deluxe™

“How to pre-format, recycle and sold as free.”

A practical guide for media houses, PR agencies, Education plans and government communication with Attitude claim.

🔷 Introduction:

Welcome to **Brainwashing Deluxe™,**

the glossy program for the intellectual foundation of Company.

Because truth is relative,

Opinion malleable

and reality is negotiable.

Machine Translated by Google

Motto:

“We deliver your opinion – now also organic, regional and gender-neutral.”

🔶 Chapter 1: The 7 Pillars of Mass Control

1. **Framing**

– Charge words with emotion (“climate denier” instead of "Doubter")

2. **Overstimulation**

– 120 news per day, 1 truth per decade

3. **False Balance**

– “Expert versus weirdo, both get 50% airtime”

4. **Outrage tactics**

– Outrage = Ratings = Profit = Algorithm friend

5. **Personalization**

Machine Translated by Google

– “How does Mrs. Müller feel about inflation?” (instead of: “Who is to blame for it?”)

6. **Memeification**

– Facts in 12 pixels, context in 0

7. **Loyalty filter**

– If you are not for it, you are suspect

🔶 Chapter 2: The Opinion Forming Formula™

Step-by-step instructions:

1. Start with an event
2. Remove context, add keyword
3. Wrap it up in a storytelling frame (child, animal, Apocalypse)
4. Repeat in 3 variations on 5 channels
5. Integrate moral fall height
6. Present an accepted attitude
7. References to “fact check” without source

Machine Translated by Google

Result: People believe what feels like a belief – but is a product.

🔶 Chapter 3: Media Ethics 2.0 – the art of Selection blindness

Golden rules:

- No lie, just deliberate omission
- No ban, just algorithmic hiding
- No opinion prescriptive, only morally unalterable Orientation

Tactical terms:

- “Controversy” – when someone tells the truth
- “controversial” – when it goes against corporate interests
- “no alternative” – if no discussion is desired

Machine Translated by Google

🔶 Chapter 4: Influencers, Experts, Victim Roles™

Target group management:

- **Influencer:** Smile, post, system affirm
- **Experts:** Doctorate + Talk Show Contract = Truth patent
- **Victims:** Only those who fit into the narrative are shown

Who speaks against it:

"Conspiracy theorist", "lateral thinker", "cultural pessimist", "Miesling", "Democrat with questions"

🔶 Chapter 5: Disposing of criticism with style

Effective methods:

- Ignore
- Caricature
- Pathologizing ("He must have had a trauma…")

Machine Translated by Google

• Algorithmically devalue (“Will not be recommended.")

In case of emergency:

Use the universal argument:

“This endangers social cohesion.”

Appendix I: Message generator for each

Position

Build your perfect message:

"In an emotionally charged debate, [symbolic figure] expressed criticism of [neutral term], which provoked [outrage trigger]. Experts urge prudence.”

Machine Translated by Google

Example:

"14-year-old environmental activist Leni called for a ban on wooden toys, saying they represent emotional violence against trees. The toy industry remains silent, experts warn."

✅Final exam:

Ask:

What is the goal of modern opinion-making?

a) Enlightenment, debate, truth
b) Conduct, consent, market control

Correct answer: b)
Because a) you can't monetize.

Machine Translated by Google

🔒 Collapse Protocol 10 –
Constitutional Supplement™

“Fundamental rights in the limited edition – now also with an optional right of withdrawal in case of disruption of order.”

A modular filing system for liberal Promise with administrative seal.

🔷 Introduction:

Welcome to **Constitutional Supplement™** –
the supplement that accompanies every democratic state system,
but is often missing or crumpled when opened
or replaced by terms of use.

Machine Translated by Google

Motto:

“Freedom is what you are allowed to do as long as you behave.”

🔶 Chapter 1: The packaging

The Constitution:

– Handy

– Noble Preamble

– With articles you never read completely

– And footnotes that only constitutional courts see

Warning (small print):

“Applicability can be in times of crisis, pandemic
Conditions or inappropriate attitude
be restricted.”

🔶 Chapter 2: Fundamental rights with asterisks

Article	In theory	In practice (optional with update)
Article 1 – Human dignity	*Inviolable are!*	*Unless you are not system compatible*
Article 5 – Freedom of expression	*Applies to everyone!*	*But please not publicly and not critically*
Art. 8 – Right of assembly Art. 13	*Anytime! Except Mondays, Fridays, and weather warnings*	
– Inviolability of the home	*Your kingdom!*	*Smart TV, voice assistant and rental agreement contradict each other.*

🔶 Chapter 3: The Enclosure Moment

You can recognize the insert if:

- Your protest march is legal, but surrounded
- Your speech is formally heard but ignored
- Your petition has 97,000 signatures – and in a Committee was “taken note”

Typical reaction:

“That’s completely normal in a democratic sense.”
(translated: Nothing happens.)

🔶 Chapter 4: The Federal Office for the Protection of the Constitution Paradox

Protect the Constitution – from those who take it seriously take.

Evidence of unconstitutional behavior:

- You read the constitution voluntarily
- You ask why equality is not equally distributed
- You politely request that your rights be enforced
- You use your brain in public

Consequence:

Suspected deviant behavior – please report
for further training.

🔶 Chapter 5: Optional Upgrade – “Right as Simulation™

Now new in version 4.3:

• Artificial intelligence decides on applications

• Court dates via Zoom, provided you have a valid algorithm

• Data protection as a placebo – with full data leakage to the hosting provider of your choice

🧾 Appendix J: Quick Access to Civil Rights

1. **Right to information:**

Only if it's approved. Or leaked.

2. **Right to participation:**

With proof, app, appointment and moral harmlessness.

3. **Right to equality:**

Only within your tax bracket.

4. **Right to one’s own opinion:**

With the addition: “But please don’t say it out loud.”

✅Final exam:

Question: What is a modern constitution?

a) A living foundation for a free, just
community

b) A decorative document with sentimental value and little everyday relevance

Correct answer: b)

Because a) would require courage, media and shared responsibility.
